Patient:

Name: Thorne, Ricardo

DOB: 12/22/1970

Medical Clearance Letter

To whom it may concern:

Mr. Ricardo Thorne is a patient under my professional care for the treatment of his epilepsy (ICD 10: G40.219). I have been treating Mr. Thorne since 2012 for his condition. Mr. Thorne's last breakthrough seizure occurred 7 months ago, and he was previously having seizures every 3 months from 2020-2021. I believe that his condition will continue to improve as long as he continues to take medications as instructed, and continue to follow with me.

Sincerely,

Dr. Pavel Klein
